## COMPANY INTRODUCTION

New World Horizon is one of the leading stockiest suppliers of Line pipe & Engineering Products serving Oil & Gas, Hydrocarbon, Power Generation, Steel Industry, Ship Building, Construction, and Water Treatment Industries.

Our highly qualified staffs are experts in providing the best solution to various requirements of our customers and ensuring their satisfaction.

## INDUSTRIES

## OUR MISSION

Our mission is to provide exceptional services to our customers. We are committed to providing the highest level of professionalism, service, and quality of workmanship. Our pledge is to establish lasting relationships with our clients by always exceeding their expectations.

## VISION

To earn the lifetime loyalty of our customer by consistently delivering the high-performance material best solution to our customers which can offer them excellent value.

## OUR STRENGTH

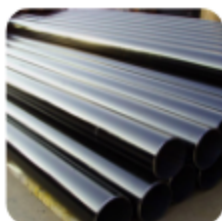

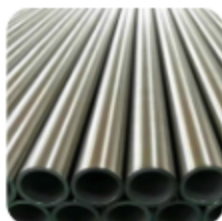

Our team is specially trained to work together in a streamline to achieve one goal. NWH has its own warehouse in Jebel Ali Industrial Area to take care of each shipment and to maintain proper stocks as per market demand.

## OUR GOAL

To earn the lifetime loyalty of our customers.

## AXIAL FLOW PUMPS

Axial flow pumps, also known as elbow or propeller pumps are used in high-flow and low head applications.

## AXIALLY SPLIT PUMPS

Sulzer offers a wide range of double suction axially split pumps, which include both single and multistage designs.

## DEWATERING PUMPS

Our dewatering pumps are designed to meet tough challenges in construction sites, tunnels and mines.

## FIREWATER PUMPS

Firewater pumps are conventional, vertical line-shaft pumps driven by a diesel engine via a 90° gearbox.

## MULTIPHASE PUMPS

Multiphase pumps enable boosting the oil/gas/water mixture from producing wells, without separating the gas from the liquids.

## SLURRY PUMPS

Slurry pumps are used for applications where solids are present in the fluid stream.

## RADIAL SPLIT PUMPS

Radial split pumps: the GSG and CP are for high-temperature hydrocarbon processes, oil production and offshore crude oil services

## RING SECTION PUMPS

Sulzer has a long tradition of supplying ring section mid- to high-pressure pumps for all kinds of industrial applications.

## SINGLE STAGE PUMPS

These pumps comply with either ISO 5199 / ISO 2858, ASME B73.1, or API 610 standards and guarantee reliable pumping processes.

## VACUUM PUMPS

Designed as the best solution for vacuum applications where wet or extremely humid and slightly contaminated gases are ingested.

## SUBMERSIBLE PUMPS

The applications extend from the pumping of light and medium duty within residential and commercial properties.

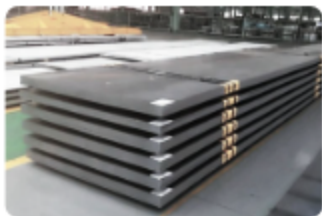

## PROGRESSING CAVITY PUMPS

Sulzer offers a range of progressing cavity pumps for demanding positive displacement process applications.

## BEAMS

Universal Beams (UB), Universal Columns (UC), American Wide Flange Beam (W), European Flanges (IPE/IPN)

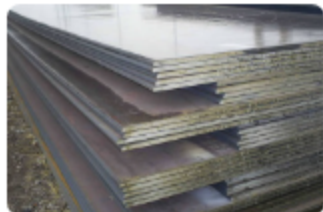

## PLATES

Hot Rolled Plates, Graded Plates, Boiler Grade Plates, Pressure Vessel Plates, High Tensile Plates in different grades.

## CHANNELS

Parallel Flange Channels (PFC), Japanese Channels / British Channels (C), European Channels (UPN)

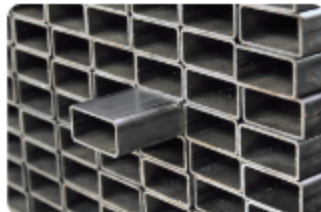

## SHEETS

Mild Steel Sheets (MS), Hot Rolled Sheets (HR), Cold Rolled Sheets (CR), Galvanized Iron Sheets

## ANGLES

Equal & Unequal Angles in different designations from Size 25mm x 25mm and thickness 12mm to 24mm

## HOLLOW SECTIONS

Hot formed hollow sections in square hollow sections, Rectangular hollow section, Square hollow section

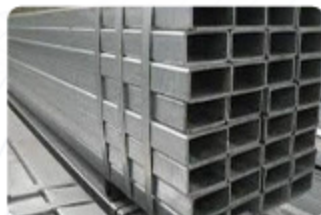

## BAR

Mild Steel (MS) Flat Bars, Round Bars, Square Bars in different diamensions from 13mm x 3mm to 120mm x 8mm

## PIPES

High Frequency Induction (HFI) Welded Pipes in black unpainted and mill finished for construction and industrial purpose

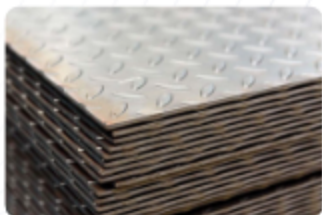

## TUBES

Cold Formed High Frequency Induction (HFI) Welded Tubes in Square and Rectangular Tubes Supplied in specifications

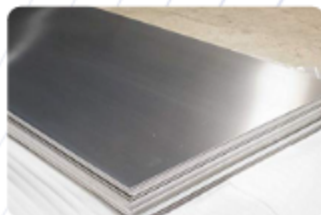

## COILS

Mild Steel (MS) Coils, Hot Rolled (HR) Coils, Cold Rolled Coils, Galvanized Iron (GI) Coils with coil slitting process

## CHEQUERED PLATES

Mild Steel (MS) Chequered Plates available in different specifications & grades from ASTM A38 or equivalent grade

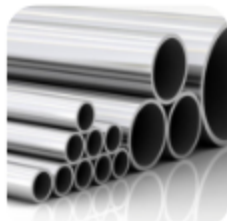

## STAINLESS STEEL

Stainless Steel Flat and Long Products in different specifications and grades from SA240 Gr.304 or equivalent grades

# WAREHOUSE

Our warehouse facility is located in Al Wakrah which is spread across 40,000 sq. m. The warehouse has been separated into different sections to store similar products together. This ensures faster access and transmission of products. Also, we are equipped with modern infrastructure for material handling and computerized Inventory Management systems.
